Helps our veterans while preserving the environment and benefitting our local communities.

Our innovative program...

- is a **social business** model that generates revenues for our veterans programs
- provides donors with a **tax-deductible** opportunity to support our veterans
- offers donors unparalleled **convenience**: we come to you and **pick up** your donation!
- **promotes re-use** of clothing and household goods
- **reduces** the amount of waste sent to landfills
- **saves taxpayers money** on waste disposal services
- **brings resources** to local communities

OUR SOCIAL BUSINESS MODEL

A **social business** operates in the same way as any other business, with the operating, administrative, and marketing costs associated with running a successful enterprise.

However, instead of generating profits for owners or shareholders, the revenue from a social business directly funds charitable initiatives.

UWVC Recycling is a “green” social business enterprise, in which we collect donations of gently-used clothing and household goods for reuse and recycling. We generate revenue by selling the items we collect to reuse retailers.

This represents a stand alone source of revenue that is self-funded and self-reliant, and

which is a resource that would not otherwise exist for our veterans.

This revenue we earn, combined with our traditional fundraising campaigns and sponsorship opportunities, helps support our work for veterans and the organizations that serve them.

HOW YOUR DONATION HELPS

Proceeds generated by UWVC Recycling go toward the United War Veterans Council’s programs that mobilize the public to support our veterans, and that provide services to our veterans, including:

HEALTH & WELLNESS

The UWVC coordinates a series of health and wellness programs that provide therapeutic benefits to veterans. These activities represent a holistic approach to helping veterans, and include:

- **RUCKING**: Military-style marching/hiking with weighted backpacks; provides fitness and mental health benefits.
- **EQUINE THERAPY**: Horses help veterans cope with mental issues by increasing feelings of calm and empathy.
- **SAILING**: Veterans work together to overcome challenges by harnessing the elemental power of the sea.
- **ART THERAPY**: Enable veterans to safely expressing complex feelings and issues through creative works.

LEGACY & EDUCATION

The UWVC organizes events and initiatives that reach a wide range of audiences:

- **GENERAL PUBLIC**: Promote the importance of veterans to our society, and provide opportunities and pathways for engagement for individuals, groups and companies.
- **YOUTH**: Create tomorrow’s supporters (and today’s influencers) by teaching youth about history and veterans issues.
- **SERVICE PROVIDERS**: Help improve outreach and impacts through training workshops
- **BUSINESSES**: Create educated advocates within companies via Best Practices workshops

These efforts complement our health and wellness programs by connecting veterans to supporters and services through our network of partners and providers.
